NOTE: user should also
have the ability to login
using their other social
media accounts i.e. facebook,
google+ or email

Interior
Design
Screen

→ The user will have the ability to design their profile page "picture collage" style w/ "roughly free" images, images from their personal gallery in their phone, or by purchasing a pack of stickers located on the app for a minimal fee.

→ In addition, the user will have the ability to change the background color of their profile page, by using a color wheel embedded inside the app (background)

content
server

Page $\frac{3}{4}$
of 4

User will have the ability
→ to upload images relative
to them attending a PARTY,
concert or ~~EVENT~~!

→ User will have the
ability to upload 90 second
videos of them attending
a PARTY, concert or ~~EVENT~~!

→ User will have the
ability to livestream their
experience of "LIVE" while attending
a PARTY, concert or ~~EVENT~~

Wall section

Page 14
of 14

→ User name at top of page to far
left hand corner

→ down the middle is where I
want to see the users photos and
captions

→ to the right of the page is
where the user should be able
to see all their friends
username and profile picture
in addition to whether their
friend is online or not
(in order for this section of the
wall to be achieved, the user will
have to have the ability to
IM the user (instant message
capabilities))
